

Contex provides quality cost-effective engineering services and products to the Simulation and Training Industry.

We have an experienced team of engineers and subject matter experts that can help deliver your project to market, on time and within budget.

Contex is able to offer its services scaled to your project requirements.

- **Quality Simulator Hardware**
- **Aircraft FMS/System Trainers**
- **Procedure Trainers**

About Contex

Contex has an experienced team with deep roots within the Simulation and Training Industry.

Contex provides cost effective quality hardware/software for use in military and commercial aircraft simulation applications.

Contex has developed solutions for several of the Airbus, Boeing, and Regional Aircraft.

Contex is vertically integrated with an in-house team of mechanical, electrical, software, and simulation engineering.

Contex products are in use by some of the world's largest simulation companies and airlines.

EXPERTISE

Contex has proven expertise with:

Quality Simulator Hardware

Procedure Trainers

Desktop Trainers

Web-based Simulation

Flight Management System Simulation

Aircraft Systems Simulation

Simulator Software Re-hosting

ENGINEERING

Contex has an in-house engineering team with experience in:

Mechanical/Industrial Design

Human Factors

Electrical Engineering

Software/Simulation Development

MANUFACTURING

In-house Machine Shop

Rapid Prototypes

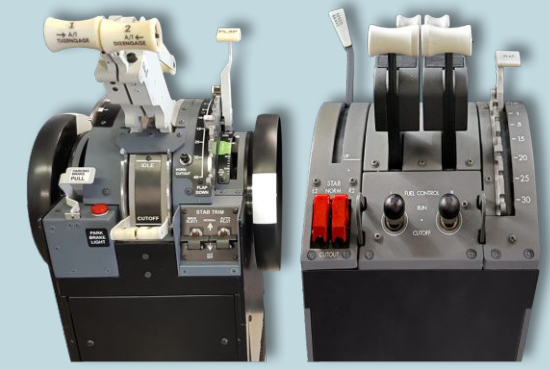

One-of-a-kind Prototypes

Boeing B737NG FMS Trainer

Airbus A320-200 Flat Panel Trainer

Simulated Boeing 737NG and 787 Throttles
